

How can we get information on funding in Romania?
How can we integrate our project and comply from the start?
How do I get a loan from the bank?
How do I apply for subventions?

1. Look on www.structural-funds-romania.ro and make a first orientation
SME
ICT
AGRI
ENVIRONMENT
INFRASTRUCTURE
2. Take your free intake session before you start the project/create/extend the company in Belgium or Romania in the PBS office
www.pbsworldwide.com
3. Do a setup with PBS
4. PBS will execute and write your business plan and get a loan from the bankers
5. PBS will file your application for subventions
6. PBS will support you during the execution of your project with experts and engineers

How can we help you with your projects ?

We have more the 6 years experience in Romania with:

- Project management and execution of industrial, agricultural and public projects;
- Executive search and recruitment in Romania;
- Financial engineering (financing, subventions, co-financing, negotiation with local bankers, business plans and feasibility studies);
- Placement of private funds and private capital in land and real estate projects (80,000 hectares in portfolio);
- Applications for subventions for structural funds in Romania (50% subventions non refundable !);
- Regional development – development of counties in Romania and assistance of the local “conciliu judetian”

We assist over the entire project track from creation of your company to start up in your local service or production facility.
